Manually configure the proxy settings on Internet Explorer (IE).

Below is a step-by-step guide on how you could configure proxy on your Internet Explorer for browsing the internet at UNITEN.

**Step 1:** Open up Internet Explorer go to **Tools -> Internet Options:**
Manually configure the proxy settings on Internet Explorer (IE).

**Step 2:** Click the **Connections** tab, click **LAN Settings**, and then tick the **Use a proxy server for your LAN.** (These settings will not apply to dial-up or VPN Connections)
Manually configure the proxy settings on Internet Explorer (IE).

**Step 3:** In the Proxy Server section, click “use the proxy server for your LAN” and “Bypass proxy server for local addresses”

**Step 4:** Put the Proxy Server address: tmg.uniten.edu.my Port: 8080

**Step 5:** Click Ok to finish the Configuration

**Step 6:** Open the Internet Explorer Browser and it will prompt a box for username and password.
Manually configure the proxy settings on Internet Explorer (IE).

Step 7: Please type the Staff or Student ID in the box.

Step 8: Please tick to “remember my credentials”

Step 8: Your browser will automatically connect to the internet.
