Manually configuration on Apple “Safari” internet browser

Below is a step-by-step guide on how you could configure proxy on your Apple Safari for Browse the internet at UNITEN.

**Step0:** Open up Safari go to General Safari Setting -> Preferences:

NOTICE:

However Apple safari is using same proxy as used by internet explorer so if you have already set proxy in IE then you don’t need to set Proxy again for Apple Safari but if you haven’t set proxy then you can follow this method.
Manually configuration on Apple “Safari” internet browser

**Step1:** To set proxy in Apple Safari Go to **Preferences** (Top-Right Side) > Click on **Advanced** > Click on **Proxies** and you can change Proxy from there.
